

# Enabling us to be the best that pharmacy can be

**UKPPLAB**

collaborative pharmacy professional leadership

## Unified and Inclusive Leadership

Together we aspire to establish and lead a collaborative and inclusive model for professional leadership that represents everyone working in pharmacy across the UK.

## Supporting Collaboration

We want to build and sustain positive relationships across the wider pharmacy team, other healthcare professions, sectors and countries to improve patient safety and care.

## Advocacy and Public Awareness

Together we aspire to be a unified and powerful voice, advocating for pharmacy professions with employers, government, and the public, while building recognition of pharmacy's vital role in patient care.

## Embracing Advancements in Practice

Our aim is to explore innovative practices and uphold professional standards to benefit patients, communities, and health and care services.

## Driving Forward Education, Innovation and Research

We want to lead and support education and research in the UK and internationally through innovation and excellence in pharmacy professional practice.
